If you wish to be removed from the list, please contact jprice@rce.biz I will be happy to remove you.

Problem of the Month:

An ammonia detector is located in a low temperature cooler. The detector fails. When opened, water pours out of the housing. What is the problem?

!!!Remember, RETA monthly meetings count toward continuing training requirements for PSM.

Documentation will be provided if requested. An easy way would be to print off this announcement and bring it to the meeting, we will verify you were present. Pretty easy way to get a couple hours of training!! **LET YOUR BOSS KNOW OR BETTER YET BRING HIM ALONG!!**

RETA DALLAS/FT. WORTH CHAPTER

Thank you to all those who made it last night. I don't know about everyone else, but my dinner was very good! If you missed, just give me a call and I will tell you how good that beer and steak was!

Let me know if you like the new location, if so we will book it for next year.

We had a great discussion by **Scott Goad** on the New Homeland Security Program. Thank you Scott!

Start putting on your thinking caps. Your new leadership needs to know what kind of programs you would like to see from us this year!

Speaking of new leaders, we ratified the new program to build the Chapter leaders by running them through the ranks instead of voting each year.

Treasurer (For Life) – Will handle our books (notice I said plural) until a time at which we no longer want him to do so (Again notice I said nothing about what he wants)

David Phillips

Sysco Foods

Voted positions

Secretary- Will handle the minutes and sign-in sheets for the Chapter. Only position to be voted on every year.

Chris Marquez, P.E.

The Stellar Group

Jr. Vice President – Will handle the membership questions and assist in the growth of the Chapter. Secretary will move into this position.

Dennis Rigney

Texas Water Technologies

Sr. Vice President – Will Handle the meeting set up and meeting notices and assume the President's tasks if he should be unable to continue. Jr. Vice President will move into this position.

Larry Vaught

RC&E, Inc.

President – Will handle the meeting flow, conduct Chapter business and assist all leaders in their tasks. Sr. Vice President Will move into this role.

Jamey Price

RC&E, Inc.

Honorary Chairman – Past Year's President will assist the leadership in their roles; help make transitions smooth and assist leaders in their new roles.

Jim Price

Jacobs/Carter Burgess

We thank Jim Price for his leadership and his guidance in helping the Chapter to grow throughout the past five years and we look forward to his continued input. We also must thank the company formerly known as Carter Burgess, Jacobs/Carter Burgess for their support of Jim which allowed him to make things happen. He leaves his leadership role after putting the DFW Chapter second in size (soon to be #1) and a large coffer from which to spend. I hope in my term I can do half the good he has done for the Chapter.

Thank you,

RC&E, Inc.
